**MSG 75 SERIES**

The low-profile air suspension provides unmatched vibration-absorbing technology in a small package. The MSG 75 fits perfectly in compact construction machines.

**FEATURES:**
- Very low-profile air suspension (20V or 24V compressor)
- Suspension stroke up to 4.8 in. (120 mm), 6.3 in. (160 mm) or 8.2 in. (210 mm)
- Weight adjustment range – 90-275 lbs. (41-125 kg)
- Function adjustment – accommodates all body sizes/types
- Lumbar support – easily adjusts for optional back support
- Backrest evolution
- Swivel (360°) equals 0° to 10° (or 15° increments)
- Metaflex seat belt (with switch available)
- Adjustable or fixed armrests
- Document box or net
- Point-of-sale – automatically reduces horizontal vibrations and prevents jolt from rocking the back
- Operator presence switch
- High back or low back seat top options – available in three widths
- Cut & sew style cushions for added comfort and style
- Customer Logo

**ALL SEATS CAN BE ENHANCED WITH THESE ADDITIONAL OPTIONS.**
- Air suspension
- Dual motion multifunctional armrest
- Heat control
- Lumbar control
- Swivel control
- Fore/Aft isolator – dramatically reduces horizontal vibrations and prevents jolt from rocking the back

**BUILT TO HANDLE THE HEAVIEST OF WORKLOADS**

The MSG 97 provides the ultimate hardworking comfort in the roughest conditions you can throw at it. Designed with forward-thinking innovation, this seat’s low-frequency air suspension minimizes machine vibrations and dampens driver impacts, which maximizes your ability to put in long hours.

**FEATURES:**
- Low-frequency air suspension (24V or 12V compressor) – reduces the impact of extreme shocks to the body
- Suspension stroke up to 3.9 in. (100 mm)
- Weight adjustment range = 110-400 lbs (50-180 kg)
- Fore/aft adjustment – accommodates all body sizes/types
- Height adjustment up to 3.1 in. (80 mm)
- Lumbar support – easily adjusts for optimal back support and comfort
- Adjustable headrest or backrest extension
- Swivel (0° to 360°) – allows for better view of rear equipment and improved cab mobility
- Retractable seat belt – 2-point, 3-point or 4-point
- Seat depth/tilt – four adjustable positions to reduce pressure on the backs of knees
- Adjustable or foldable armrests
- Document box or net
- Side-to-side isolator
- Fore/aft isolator – dramatically reduces horizontal vibrations and prevents jolts from jarring the back
- Operator presence switch
- Control carrier console – offers easy access to joystick controls
- High back or low back seat top options available in three widths
- Cut & sew style cushions for added comfort and style
- Customer Logo

Our hardworking, heavy-duty mechanical suspension offers a boost in vibration reduction for a more comfortable ride in even the most demanding conditions.

**FEATURES:**
- Mechanical heavy-duty suspension – provides dependable, hardworking comfort
- Suspension stroke up to 3.9 in. (100 mm)
- Weight adjustment range = 110-285 lbs (50-130 kg)
- Fore/aft adjustment – accommodates all body sizes/types
- Height adjustment up to 3.1 in. (80 mm)
- Lumbar support – easily adjusts for optimal back support and comfort
- Adjustable headrest or backrest extension
- Swivel (0° to 360°) – allows for better view of rear equipment and improved cab mobility
- Retractable seat belt – 2-point, 3-point or 4-point
- Seat depth/tilt – four adjustable positions to reduce pressure on the backs of knees
- Adjustable or foldable armrests
- Document box or net
- Side-to-side isolator
- Fore/aft isolator – dramatically reduces horizontal vibrations and prevents jolts from jarring the back
- Operator presence switch
- Control carrier console – offers easy access to joystick controls
- High back or low back seat top options available in three widths
- Cut & sew style cushions for added comfort and style
- Customer Logo

ALL SEATS CAN BE ENHANCED WITH THESE ADDITIONAL OPTIONS.
You asked for a special kind of seat for the most heavy-duty construction applications, so we delivered one with everything you wanted. With a rugged mechanical suspension and wide base, it’s built to handle the toughest environments.

FEATURES:
- Mechanical heavy-duty and extra-wide suspension providing hardworking comfort
- Suspension stroke up to 7.0 in. (180 mm)
- Weight adjustment range – 110-400 lbs. (50-180 kg)
- Fore/aft adjustment – accommodates all body sizes/types
- Height adjustment up to 3.1 in. (80 mm) or 2.3 in. (60 mm)
- Lumbar support (mechanical or pneumatic) – easily adjusts for optimal back support and comfort
- Adjustable headrest or backrest extension
- Swivel (0° to 360°) – allows for better view of rear equipment and improved cab mobility
- Retractable seat belt – 2-point, 3-point or 4-point
- Seat depth/tilt – four adjustable positions to reduce pressure on the backs of knees
- Adjustable or foldable armrests
- Document box or net
- Side-to-side isolator
- Fore/aft isolator – dramatically reduces horizontal vibrations and prevents jolts from jarring the back
- Adjustable damper
- Active climate control – seat top removes sweat to keep you dry in the heat; integrated seat heating keeps you warm in the cold
- Operator presence switch
- Comfort module
- Cut & sew style cushions for added comfort and style
- Control carrier console – offers easy access to joystick controls
- High back or low back seat top options available in three widths
- Customer Logo

MSG 95 SERIES

Our industry-leading air suspension seat has been meticulously engineered to rigorously absorb vibrations of all types. This versatile seat can be equipped with an array of suspension systems to meet the specific needs of the job, including an elite Dynamic Dampening System™ (DDS) and Low-Frequency suspensions.

FEATURES:
- Air suspension (12V or 24 compressor) – sets the standard for the industry
- Suspension stroke up to 7.0 in. (180 mm)
- Weight adjustment range – 110-285 lbs. (50-130 kg)
- Fore/aft adjustment – accommodates all body sizes/types
- Height adjustment up to 3.1 in. (80 mm) or 2.3 in. (60 mm)
- Lumbar support (mechanical or pneumatic) – easily adjusts for optimal back support and comfort
- Adjustable headrest or backrest extension
- Swivel (0° to 360°) – allows for better view of rear equipment and improved cab mobility
- Retractable seat belt – 2-point, 3-point or 4-point
- Seat depth/tilt – four adjustable positions to reduce pressure on the backs of knees
- Adjustable or foldable armrests
- Document box or net
- Side-to-side isolator
- Fore/aft isolator – dramatically reduces horizontal vibrations and prevents jolts from jarring the back
- Adjustable damper
- Active climate control – seat top removes sweat to keep you dry in the heat; integrated seat heating keeps you warm in the cold
- Operator presence switch
- Comfort module
- Cut & sew style cushions for added comfort and style
- Control carrier console – offers easy access to joystick controls
- High back or low back seat top options available in three widths

MSG 87 SERIES

ALL SEATS CAN BE ENHANCED WITH THESE ADDITIONAL OPTIONS.

WE MAKE OFF-ROAD FEEL LIKE ON ROAD.
Day in and day out, heavy construction operators are exposed to intense vehicle vibrations, leaving them susceptible to back problems and even serious injury. GRAMMER seats are here to keep operators healthy, no matter how brutal the conditions. Built with advanced materials and industry-leading suspension systems, GRAMMER seats reduce the job’s nastiest vibrations and maximize comfort. Make sure you protect your body with a GRAMMER seat. It's just what the doctor ordered.

**MSG 65 SERIES**

Light construction machines do some major heavy lifting. The MSG 65 series makes sure you don't feel the pain. Designed with a low-profile mechanical suspension that significantly reduces vibrations, it helps you stay comfortable, no matter how tough the day gets.

**FEATURES:**
- Very low-profile mechanical suspension
- Suspension stroke up to 2.3 in. (60 mm) or 3.1 in. (80 mm)
- Weight adjustable range: 80-285 lbs. (35-130 kg)
- Lumbar support – easily adjusts for optimal back support and comfort
- Backrest extension
- Swivel (170° right to 0° left in 10° increments)
- Retractable seat belt (with switch available)
- Adjustable or foldable armrests
- Document box or net
- Fore/aft isolator – dramatically reduces horizontal vibrations and prevents jolts from jarring the back
- Operator presence switch
- High back or low back seat top options – available in three widths
- Cut & sew style cushions for added comfort and style

**MSG 20 SERIES**

The MSG 20 is our most comfortable semi-suspension seat. Packed with features and an ergonomic design, this seat will keep you focused on the job, not on the vibrations.

**FEATURES:**
- Semi-suspension
- Suspension stroke up to 2.3 in. (60 mm)
- Weight adjustable range: 90-285 lbs. (40-130 kg)
- Fore/Aft adjustment – accommodates all body sizes/types
- Retractable seat belt
- Foldable armrests
- Document box
- Operator presence switch

**B 12 SERIES**

Don't let its classic design deceive you. The B 12 is built with a rugged toughness and advanced, shock-absorbing materials so it can stand up to any job.

**FEATURES:**
- Semi-suspension
- Suspension stroke up to 1.6 in. (40 mm)
- Weight adjustable range: 90-265 lbs. (40-120 kg)
- Fore/Aft adjustment – accommodates all body sizes/types
- Retractable seat belt
- Foldable armrests
- Operator presence switch

**ALL SEATS CAN BE ENHANCED WITH THESE ADDITIONAL OPTIONS.**

- Mechanical Suspension
- Multifunctional Armrest
- Heat Control
- Lumbar Control
- Swivel Control

**MAKE YOUR JOB LESS SPINE TINGLING.**
