DUAL MOTION
ERGONOMIC SEATING WITH ADAPTIVE BACK SUPPORT
Sitting for a long time in a twisted position used to be hard, tiring work. No longer! Adaptive back support with Dual Motion reduces muscle fatigue. With this new innovation, GRAMMER sets new standards of comfort and ergonomics — for your back’s sake!

**HIGH COMFORT BACKREST**
For greater support when facing forward

**DUAL MOTION**
The upper backrest adjusts to support the body when twisting around to face backward

**HIGH COMFORT ARMREST** (Optional)
With larger surfaces for greater support when twisting around

**IMPROVED OPERATING CONCEPT**
• Design for use
• Dual Motion function automatically engages simply by twisting around
